

A MESSY WORKPLACE IS NEVER SAFE

1. Clean up seems much more important after an employee suffers an injury from a fall or a slip.

- ☐ True
- ☐ False

2. Productivity is affected by sloppy and careless housekeeping habits in the workplace.

- ☐ True
- ☐ False

3. It is overrated to be concerned about cleaning up after yourself in the breakroom because nobody is hurt or harmed

- ☐ True
- ☐ False

4. It is not critical to report safety hazards and housekeeping concerns immediately.

- ☐ True
- ☐ False

WHAT WOULD YOU DO?

You notice a co-worker in chemical plant throw oily rags on several occasions in cardboard box containers.

What would you do?
